Our Natural Series is all about natural beauty! Wood and form speak for themselves and can be appreciated by touch. Simplicity, utility and highest quality are combined in an unbeatable, conscious understatement.
As the smaller sister of our M-14 CP 63 Natural, the A-14 CP 63 Natural shares the same tonal identity: balance and transparency. Its cedar top and sapele mahogany back and sides combine to create a harmonious sound with a very pleasant tonal warmth. The shorter 630 mm scale length and the neck joint at the 13th fret make this an instrument that almost plays itself—here perfected in our smaller Auditorium body shape. The perfect instrument for guitarists with a more compact build, or for players who enjoy moving around a lot while they play.
