You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.
The Auditorium is the second smallest guitar shape in our system, and yet the A-15 Edition 2022 offers the full range and full tone that Lakewood guitars are known for.
