You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.
The A-20 CP B Domino was a limited edition in 2004. This Auditorium guitar has got the body-neck-joint, unlike our "normal" A-models, at the 14th fret. Combined with the 44mm neck it is also a very nice strumming guitar. A close relative of the A-20 CP B Domino is the D-20 CP B.
